During the site visit, IDOE personnel will visit several tutoring sessions to observe lessons being provided. IDOE reviewers will be looking to see that actual tutoring matches lesson plan descriptions that are provided in requested documents, as well as those that were provided in the original provider application; that tutors and students are spending an appropriate amount of time on task; that instruction is clear and understandable; and that instructors seem knowledgeable about lesson content.

Each provider will receive a mark of "Satisfactory" (S) or "Unsatisfactory" (U) for each component. Providers receiving a "U" in any component will be required to address deficiencies within 30 calendar days of receiving their final report. Failure to address deficiencies will result in removal from the state approved list.

COMPONENT	S	U	REVIEWER COMMENTS
Lesson matches original description in provider application	S		Students worked on academic enrichment activities such as workbook pages or worksheets that focused on English/Language skills and had direct support/assistance from tutors. Assignments included asking students to 1) identify prefixes and suffixes, 2) identify antonyms, 3) identify words with long "e" & "i" sounds, 4) determining the cause and effect of events after reading a story, and 5) identifying the main idea of an article that students had recently read. When students completed assignments, tutors reviewed their work and assisted them with making appropriate revisions when their answers were incorrect before students continued with a new activity. Students were awarded "blue reward chips" when they provided a correct answer or completed an assignment correctly. Observed lessons match original description in provider application.
Instruction is clear	S		For the most part, tutors were able to provide clear guidance if/when students requested assistance.
Time on task is appropriate	S		Students generally stayed on task. Tutors monitored students' progress on their work and redirected students when they were off task.
Instructor is appropriately knowledgeable	S		Tutors were able to appropriately clarify assignments and adequately address questions regarding student's homework when students requested assistance.
Student/instructor ratio: <u>about 3:1</u>	S		Application notes that the ratio will be 3:1 and that instruction will be individual or in small groups. A 3:1 ratio and small group instruction were observed.
